About Net Integration Technologies Inc.

Net Integration provides easy-to-use and affordable networking infrastructure for small businesses. Serving the needs of those with little or no in-house IT expertise, Net Integration enables businesses to quickly get up and running, and focus on business, rather than worry about IT. With highly reliable automated data back-up and disaster recovery solutions, Net Integration protects customers from inadvertent loss of critical data.

Based on robust Linux technology, Net Integration's self-managing operating system, Nitix, has over 11,000 installations worldwide, and does not require Linux-specific knowledge. Net Integration has an extensive global network of resellers and strategic partnerships with IBM, NTT, Ricoh, and Sage Software.
